# Company Introduction /

LANGDAI INTERNATIONAL BEAUTY (HK) CO., LTD, brand as LANGDI, originated in 1998, is a professional high level Aesthetic & Medical device original manufacturer. As a whole large-scale modernization private enterprises, LANGDI's business ranges from original research, production, international sales & marketing, after service to professional training.

In 2004, LANGDI expanded her international trade business. Based on good quality, best service and flexible marketing strategy, she soon won good prestige and popular recognition extensively, such as: America, Britain, Germany, Turkey, Japan, India, Vietnam, Singapore, Malaysia and so on.

Since 2007, LANGDI started focusing on independent research and development of skin detection area. With 10 years efforts, after 4 generations upgrading, LANGDI achieves a historic breakthrough in the field of skin detection this year —— The Birth of Smart Mirror.

On the belief of "High-Tech", "Smart" and "Aesthetic", Smart Mirror adopts shooting, analyzing and displaying 3 functions in 1, utilizes cloud sharing technology and large data analysis technology, soon becomes the leader in the skin detection field. As LANGDI operates her business stringently in accordance with ISO13485 Quality Management System, with prominent advantages, Smart Mirror wins one "Invention Patent", four "Practicability Patent", one "Design Patent" as well as CE, 3C, PSE, FCC certifications and so on.

## **Product Advantages /**

Smart Mirror is the world's most advanced skin detection equipment together with shooting, analyzing, displaying 3 functions in 1. It adopts RGB, UV, PL 3 spectrums, combines with artificial intelligence and image analysis technology, after 10 years market test, 30 million clinical database analysis, achieves 20 seconds efficient skin analysis of 10 dermis and epidermis skin problems, Such as: spots, pores, moisture, textures, wrinkles, pigmentation and so on. According to the test results, Smart Mirror can auto-recommend products and treatment for customized skin management. It is an essential skin detection equipment for cosmetic company, beauty salon, skin clinic, training school, beauty center, beauty shop, spa, the market demand of it can be up to 100%.
